- Taguig City, Philippines

SKILLS

- Front-end development: *HTML, CSS, JavaScript, React*
- CRUD design and database management: *PHP, MySQL*
- Programming: *C, C++, Java, Python*
- UI/UX Design: *Figma*
- Digital Illustration and Photo/Video Editing: *Photoshop, Kinemaster*

CERTIFICATIONS

- Java Programming I, *University of Helsinki (2024)*
- Responsive Web Design, *freeCodeCamp (2023)*
- Introduction to IoT, *Cisco (2023)*

EDUCATION

(2020-Present)

Bachelor of Science in Computer Science

Polytechnic University of the Philippines

(2018-2020)

Science, Technology, Engineering, Mathematics (STEM)

Polytechnic University of the Philippines

(2014-2018)

Dr Arcadio Santos National High School

KENTH G. SAYA-ANG

COMPUTER SCIENCE STUDENT

Passionate in expanding knowledge of technology with a focus on practicing web and UI/UX design. Uses a variety of free online resources, including tutorials, online courses, and personal projects to gain comprehensive understanding of web design using ReactJS and UI/UX design with Figma and Photoshop. Excited to apply knowledge and skills to an internship opportunity to further both my personal and professional growth.

OJT EXPERIENCE

Pixel8 Web Solutions & Consultancy Inc

UI/UX Designer

(August 2023 - October 2023)

- Work with a team of nine members in designing mobile app user interfaces based on wireframes provided by system analysts
- Audited the UI/UX design works of fellow teammate to ensure compliance of Pixel8's design standards
- Designed an infographic that guided new interns regarding reusable component usage

ACADEMIC PROJECTS

BERT Tagalog Multilabel Hate Speech Classifier Model

Thesis 1 & Thesis 2

(July 2023 - February 2024)

- Developed a hate speech classifier based on a pre-trained Bidirectional Encoder Representation from Transformer (BERT) model using Python.
- Implemented system architecture, data preprocessing, and model fine-tuning.
- Trained the model on Filipino social media posts to assign Age, Gender, Race, Physical, Religion, and Others tags scoring an average of 89.81%.

PlantItApp Prototype

Human-Computer Interaction

(December 2022 - March 2023)

- Worked with a team of seven members in designing a prototype for plant-based management system using Figma.
- Spearheaded the design of wireframes, user interface, and interactive prototypes.
- Incorporated feedback from users and team members to refine and enhance the prototype.

OGGLP CRUD Database Management System

Information Management

(April 2022 - July 2022)

- Led a team of three developers in the design and implementation of a CRUD (Create, Read, Update, Delete) database management system using PHP and MySQL.
- Implemented the frontend and backend functionalities for data creation, retrieval, updating, and deletion.
